

Keswick to Caldbeck

14 miles / 22.5 km - 6 to 7 hours walking

The distinctive character of this stage is rough windswept moorland that opens out below the bulks of Skiddaw and Blencathra mountains. Between Skiddaw House and Nether Row there is an alternative low level route via Whitewater Dash waterfall for poor weather conditions or the less intrepid. Heather-clad slopes and extensive views across to the distant North Pennines via the infant River Caldew and an ascent of High Pike - the highest point of your journey at 685 metres.

Caldbeck
